*Sister Magdalen Coughlin
President, Mount St. Mary's College*

We hear the word "energy" often these days and frequently it is in reference to sources and expressions of power. An especially important relationship for us to understand, then, is the relationship between human energy and its source and expression. I believe education has a good deal of influence on this relationship.

Surely the point of union lies within the human mind and spirit. Here our action finds motivation and direction—here our loves and hostilities, our generousities and selfishnesses, are honed. And all of our force or power, our energy for action, rises out of our views and beliefs about reality, out of our values and insights. It can be said, then, that the resources of mind and spirit are the sources of our power.

The importance of an education which cultivates and nurtures both the mind and spirit cannot be overstated. For it is the scope and depth we gain in this process of education that becomes the source for and gives shape to the exercise of our energy. Therefore, thorough understandings of and strong loves for the good and the true and the beautiful can provide the most powerful forces on earth.

*Education, however, not only nurtures and deepens the sources of our energy, it also provides the means for a full and telling expression of that energy. Thus, not only is our aesthetic sensitivity, the ability to really **see** and **feel** beauty, cultivated in education, but also the means and style of expressing these insights are perfected by education. In the sciences we first learn to observe and test reality and then even to advance knowledge about it.*

A Mount St. Mary's education is shaped to provide you with resources of mind and spirit, skills for significant and precise expression of insights gained, and the motivation to use all of your energy to improve life—and, to do it with style.

Introducing Mr. Gordon Cooper.

Since retiring from his space career, Gordon Cooper has been concerned with the problems and possibilities of energy. He studied at the University of Hawaii, the University of Maryland Extension, the United States Air Force Institute of Technology and holds a Doctor of Science Degree. He is a member of many professional organizations and has received many awards including: Air Force Legion of Merit, Air Force Distinguished Flying Cross Cluster, NASA Exceptional Service Medal, NASA Distinguished Service Medal, and U.S. Command Astronaut Wings.

Cooper was the first to fly 122 orbits in Gemini V as command pilot, and holds the record for the most hours in space for the U.S. He was the first military man to address joint sessions of Congress twice; he also gave one of the opening addresses to the League of African Nations from space. Cooper is a regent of Mt. St. Mary's and is married to a Mount alumna, Suzy Taylor.

...frustration ... deadlines ... anxiety ... tension
... decisions ... problems ... headaches ... exas-
peration ... and finally accomplishment ...

... through all these trials and tribulations the 1982
Mount Yearbook was produced.

I sincerely thank all those in the yearbook staff who
contributed their efforts and committed themselves
throughout the year.

With love,

Deyana Ahmadi

Co-editor

During my years at Mount Saint Mary's College, I have
been successively helped, taught and inspired by the
members of our faculty, the efforts of parents and the
concern of friends. With affection and gratitude, I would
like to thank all those who have entered this phase of my
life.

Love,

GUIDANCE IS TURNING A LIGHT SWITCH ON FOR AN INDIVIDUAL, THAT IS, POINTING OUT THE BEST POSSIBLE WAY TO FOLLOW BUT WITH ONE THING IN MIND — TO HAVE THE INDIVIDUAL MAKE HER DECISION.

GUIDANCE IS TO ADVISE, TO COUNSEL, TO FILL A NEED, TO MAKE FRIENDS AWARE OF THEIR POTENTIALS, TO ENCOURAGE THEM TO STRIVE FOR HIGHER GOALS.

GUIDANCE IS THE TURNING OF A LIGHT SWITCH ON FOR THE HIGHEST DEGREE OF VOLTAGE IN ONE'S EDUCATION AND TO REACH THE GOLDEN CHANCE OF SUCCESS.
